I. CONTROLLED HUNTS OUTSIDE OUTFITTER'S OPERATING AREA.

01. Requirements to Conduct a Controlled Hunt Outside Operating Area: An outfitter wishing to conduct a controlled hunt outside his licensed area with a client with a controlled hunt permit must:

- a. Obtain written permission from all outfitters whose licensed area(s) will be directly involved in the hunt;
- b. Obtain written permission from all applicable landowners or land managers (OG-6)
- c. Obtain approval from the Outfitters and Guides Licensing Board to conduct the hunt by satisfying the following criteria:
 - i. Must be licensed for the controlled hunt species; and
 - ii. Send a written request to the Board for special one-time hunt approval, to include the hunter name and address, hunting license, tag and permit numbers, controlled hunt number, and dates of hunt.

This can be accomplished in one step by using the OG 23.1 Request and Authorization for One-time Controlled Hunt for Sheep, Goats and Moose or Hot Pursuit Agreement Outside Outfitter's Operating Area form and submitting an amendment request (OG-9) and minor amendment fee.

02. Authorization by Board: Upon approval the Board will issue a letter via the OG-22 Director's Letter of Intended Action authorizing the one-time hunt. This notification will include the name and address of the hunter(s), controlled hunt number, hunter(s) license, tag and permit numbers. No compensation or remuneration shall be permitted between outfitters participating in the conduct of a controlled hunt on another outfitter's area, unless the outfitter supplies a service for that compensation.

03. The Board has determined that they will only accept requests for trophy species, Goat, Sheep and Moose.
