

MEETING OF APRIL 15 - 16, continued:

It was the strong feeling of the Board that the meeting in Ketchum, as well as in Salmon, was a very worthwhile period of time spent. Additional feeling is that with the few which we had an opportunity to talk to knowing and understanding the amendments to the Law per the last Legislation, the word would soon get around and the understanding would be more general. We found that with the understanding of the amendment that everyone was very happy about it.
