

MINUTES OF THE MEETING
OUTFITTERS AND GUIDES BOARD
Board Office
January 19, 1965

Present: All Board Members and Exec. Secretary.

A minimum of routine business was taken care of. The status of the legislative program was reviewed.

Some discussion relative to men who had operated without license and others who had not completed their applications.

Map work, in the field, by Board members was discussed. The outcome of the legislative proposals was the "hinge" for all activity currently. It was therefore decided that, except for routine inquiries, that Taylor would answer to the requests of the legislators and keep the Board advised of the progress or lack thereof.

No specific time was set for the next meeting as it is was felt certain that the need for all to be in Boise on one or more occasions would certainly make a meeting date open the best set-up.

Exec. Sect.

Approvals:
